

Gravity 756Wh - Solar Generator

Solar Power Generator - Ideal For Motorized Trips

The Gravity 756 is a handheld, high capacity portable battery, capable of providing high AC power and DC power for all your devices. It works just like a generator, but without emitting any noise nor burning any fuels, unlike traditional diesel generators. The Gravity 756 solar power generator can be recharged via wall outlet (the charger is provided) or via solar panels. We recommend using the adequate Sunslice 150W solar panels to charge your Gravity 756 quickly and efficiently.
